This is to certify that Mesbah Uddin
has passed the PhD course: "*A short introduction to computer intensive
methods for genetic analysis*". The course was held at Aarhus University,
Foulum, from 5-7 September and from 19-21 September 2016.

Course description:

*The course provides PhD students with the statistical skills needed to imple-
ment computer-based likelihood and Bayesian models to perform genetic
analyses.*

For active participation and completing the exercises Mesbah Uddin
was awarded 4 ECTS.

Yours sincerely,

Daniel Sorensen
Professor
Institute of Molecular Biology and Genetics
Aarhus University
